## News from the LSD "Super"

**Finally!!!!** Finally, we have the date and place for the 2015 Mortimer Junction Convention. Many thanks go out to the members and advisors of the RIT Train Club for co-hosting this event with us. The Convention will be held at RIT on May 15, 16, and 17, 2015.

I just had a visit from Richard Sparrow, the Superintendent of the International Division who hosted last year's convention. He had a box of supplies and a CD with all kinds of information for us, which will make our job much easier. Our thanks, Richard!

There will be clinics, layout tours, prototype tours, a non-rail program, an award breakfast to finish the Convention and much more. So put it on your calendar, Mortimer Junction, May 15 – 17, 2015 right here in Rochester at the Rochester Institute of Technology!

This will be an event to remember and we will need a lot of help from our membership to do our best. One thing we are in need of at the moment is someone to take on Publicity for the Convention. If you would like to help in this way, contact me ASAP.

More information will be coming soon.

### Superintendent

## Tips from Bruce Shepard

A Clinician at the LSD Fall Meet, October 25, 2014

Bruce will present a hand full of tips, techniques, and ideas for our models and scenery. Some we are all familiar with and others you may not have considered.

One subject, for example, will be building vents and duct work for our model structures.

See some images of Bruce's work below from his HO scale layout in Macedon, NY.
